Arctic Mist[®] Coral Bells

Heuchera x 'Jefmist'

Arctic Mist Coral Bells

Heuchera x 'Jefmist'

Arctic Mist is a red flowered, variegated Coral Bells selected for its superior cold hardiness and fine performance under full sunshine and dry conditions.

| | |
|--------------------------|--|
| Botanical Name: | <i>Heuchera</i> x 'Jefmist' |
| Family: | <i>Saxifragaceae</i> |
| Common Name: | Arctic Mist Heuchera |
| Origin: | A seedling of the cross ('Snow Storm' x 'Brandon Pink') x ('Snow Storm' x 'Brandon Pink') made by Mr. Rick Durand of Jeffries Nurseries Ltd. Arctic Mist was selected as the best of a large group of mottled coral bells. |
| Hardiness: | Zone 3 (Canadian and USDA) |
| Growth Rate: | Arctic Mist has a good compact form with mature height of 12" (60 cm) including the flowering scapes. |
| Description: | Arctic Mist is a cold hardy, vigorous selection of coral bells with consistent mottling throughout the season. It produces plentiful, red flowered scapes that rise above the variegated foliage. |
| Culture: | Performs best in full sunshine to part shade. It is suited to a wide range of soil types and growing conditions. |
| Pest and Disease: | No specific problems. |
| Landscape Value: | Arctic Mist has shown excellent durability in the prairie landscape, even under full sunshine and dry conditions. Its compact form, variegated foliage and red flowers will be of value in prairie landscapes. |
| Propagation: | Divisions from established plants. Propagation by license only. |
| Sales Potential: | Arctic Mist will be coreleased to prairie garden centres in spring 2009 by two Manitoba companies: Jeffries Nurseries and Vanstone Nurseries. |
| Production: | Royalty of \$0.50 per plant, to be registered with COPF. |
