E-mail: jeffnurs@mts.net

**Celebrating 30 years of business (1982-2012)**

The following list is our field projections for digging spring 2012. Spring digging usually starts about April 20th and fall digging of evergreens normally starts August 15. Several new items include Manitoba Select Sugar Maples, Gladiator Crabapples, Goldspur Amur Cherry, Clump American Basswood and Homestead Buckeye. If you are looking for larger sized trees then give us a call as we always have numbers of 4" and larger trees.

Wilbert Ronald  
Caliper Trees
