**Ulmus - Elm**

**Brandon Elm**
*Ulmus americana 'Brandon'*

*Size:* 60' x 40' (15 m x 12 m)  
*Fall Foliage:* Yellow  
*Shape:* Upright, oval  
*Zone:* 2

A compact form of American Elm. Fast growing, upright tree. A good choice for a large street tree where DED is not a serious problem.

---

**Discovery® Elm**
*Ulmus davidiana japonica 'Discovery'*

*Size:* 40' x 30' (12 m x 9 m)  
*Fall Foliage:* Yellow  
*Shape:* Vase-shaped  
*Zone:* 3

---

**Tilia - Linden**

**American Linden**
*Tilia americana*

*Size:* 60' x 40' (18 m x 12 m)  
*Fall Foliage:* Golden-yellow  
*Shape:* Pyramidal to round  
*Zone:* 2

This native tree is highly regarded in boulevard plantings on the prairies due to its large leaves, fragrant yellow flowers and broad globe crown. Adapted to a wide range of soils, but will not tolerate drought.

---

**Dropmore Linden**
*Tilia x flavescent 'Dropmore'*

*Size:* 50' x 30' (15 m x 9 m)  
*Fall Foliage:* Yellow  
*Shape:* Broad, pyramidal  
*Zone:* 2

A hybrid of American and Littleleaf Lindens that is characterized by dark green foliage and dense, pyramidal shape. Much faster growing and hardier than Littleleaf Linden.

---

**Glenleven Linden**
*Tilia x flavescent 'Glenleven'*  
*New listing for 2005.*

*Size:* 40' x 30' (12 m x 9 m)  
*Fall Foliage:* Golden-yellow  
*Shape:* Broad, pyramidal  
*Zone:* 3

This slow growing tree has shiny, copper bark and dark green leaves. A good choice for residential plantings. Adequate wind protection and regular watering is needed to maintain this moderately hardy Linden.

---

**Golden Cascade Linden**
*Tilia cordata 'Golden Cascade'*  
*New*  

*Size:* 40' x 25' (12 m x 8 m)  
*Fall Foliage:* Golden-yellow  
*Shape:* Cascading  
*Zone:* 3

A Jeffries Nurseries introduction with cascading branches and medium sized leaves. Excellent golden fall foliage colour. Developed by Dr. Wilbert Ronald. Royalty 50¢.

---

**Harvest Gold® Linden**
*Tilia mongolica 'Harvest Gold'*

*Size:* 40' x 25' (12 m x 8 m)  
*Fall Foliage:* Golden-yellow  
*Shape:* Upright, oval  
*Zone:* 2

Outstanding tree known for its upright form, disease-free foliage, golden fall colour, exfoliating bark and hardiness to Zone 2. Introduced by Jeffries Nurseries. Royalty 50¢. USPPP

---

**Littleleaf Linden**
*Tilia cordata*

*Size:* 45' x 30' (13 m x 9 m)  
*Fall Foliage:* Yellow  
*Shape:* Broad, pyramidal  
*Zone:* 3

This native tree is highly regarded in boulevard plantings on the prairies due to its large leaves, fragrant yellow flowers and broad globe crown. Adapted to a wide range of soils, but will not tolerate drought.

---

**Norlin Linden**
*Tilia cordata 'Ronald'*

*Size:* 50' x 30' (15 m x 9 m)  
*Fall Foliage:* Yellow  
*Shape:* Broad, pyramidal  
*Zone:* 3

Prairie Hardiness  
Zone Map  
(see page 63)
POTTING BARE-ROOT TREES

Handling deciduous trees is a challenge, especially under prairie conditions. Here are a few tips to ensure success in the maintenance of your bare-root and potted trees:

- **Bare-root trees must not** be allowed to dry out. If possible, store bare-root plants in a cool, humid area. Protect from sun, wind and frost at all times. Roots can be kept moist by watering and covering with straw or wood chips.

- Bare-root material of species such as Hackberry, Hawthorn and Sugar Maple require very favorable conditions before and after potting. A combination of high humidity and warm temperature is necessary for leaf out to occur.

- **DO NOT** allow your container trees to dry out. Water thoroughly and regularly. However, be very careful that you do not over-water. Water more frequently when the temperature rises about 25°C (77°F).

- Place spring-potted trees in a partially shaded, wind protected area such as a lath house until bud break. Maintaining high humidity in the crown of the tree with **overhead sprinklers** will help to promote bud break.

- Provide wind protection for established potted trees with a dense crown of foliage. This will minimize drying out and blow down. Space out trees so that new growth develops in a uniform fashion.

- Black pots absorb heat and cause an increase in soil temperature. We have noted greatly improved root development by surrounding the container in wood mulch or other similar substrates.

- When transplanting spring potted trees, remember that the root system has just begun to develop. For planting, these trees should **NOT** be pulled out of the pots. Rather the thin-walled plastic pots should be slit vertically in four places and opened up to allow the soil mass to be carefully shifted into the planting hole.

WIRE-BASKETED TREE PRODUCTION

1. **Planting**
   a) We now use variable row spacing to allow access between every second row. Usually we use two rows 8’ or 10’ apart with a gap of 12’ or 15’ then we will repeat two rows at 8’ or 10’.

   b) We use a 75 to 100 H.P. tractor to pull a large heavy duty tree planter to install trees at 4’ to 5’ apart. Normally we plant a two year branched tree and leave it to grow three or more years to caliper.

2. **Harvesting**
   a) Tree spades have moved from tractor to skid steers. Our Bobcats can dig from 24” to 40” tree balls quickly and efficiently. Skid steers do not take the room to maneuver that tractors require. They are easier to move from field to field and can both dig & load trees.

   b) Our 4-bladed Lemar tree spades are designed for low maintenance with grease-less slides and bushings. All spades are electric over hydraulic controlled and have inside frames to allow close spaced trees to be dug. We use welded baskets and treated liners throughout unless requested otherwise. We use a 11° spade for Mendoza Juniper, small spruce and cedars.

   c) Treated burlap enables storage of plant material all season long. Trees are stored about ground, and we continue to make seasonal storage improvements.

   d) Tying string: ¾” flat. Ball weights (approximate): 24” - 300 lbs., 28” - 450 lbs., 32” - 600 lbs., 34” - 700 lbs., 36” - 800 lbs., 40” - 1100 lbs.

3. **Loading**
   About 90% of basketed trees are loaded on flat deck double stacked semi trailers (we load in field whenever possible). Flexible loading arms on skid-steer loaders in the field or fork lifts in yard simplify loading.

   Finally, the load is covered over with standard mesh tarps. We use fork lifts to pull the tarp over the trees. Freight is prepaid to insure best rates.
We produce a collection of hardy plant varieties as top-grafted standards. Annual pruning is recommended to keep the top graft looking neat, to take out any broken branches and to remove sprouts at the base of the standard. Keep top-grafted standards as the focal point in your landscape by planting low-growing shrubs, evergreens or perennials below.

**Globe Caragana STD - Caragana frutex 'Globosa'**
Top graft has a compact habit with densely arranged foliage. Bright yellow flowers in early summer. Zone 2.

**Pygmy Caragana STD - Caragana pygmaea**
Top graft is compact, dense and thorny with fine textured foliage. The small bright yellow flowers appear in June. Zone 2.

**Walker Caragana STD - Caragana arborescens 'Walker'**
Fine textured, light green foliage makes this plant look very graceful and elegant. Bright yellow flowers cover the arching branches in late June. Zone 3. Royalty 10¢.

**Weeping Caragana STD - Caragana arborescens 'Pendula'**
The arching and weeping branch characteristic of this regular-leafed Caragana make it an ideal accent plant. Yellow flowers cover the green foliage in late June. Zone 2.

**Royal Beauty Crabapple - Malus x adstringens 'Royal Beauty'**

**Double Flowering Plum STD - Prunus triloba 'Multiplex'**
The showy double-pink blossoms appear ahead of the green foliage and make a spectacular display in the spring. Prune the top graft to keep a neat and orderly shape. Zone 2.

**Dwarf Korean Lilac STD - Syringa meyeri 'Palibin'**
This distinctive and compact lilac produces an abundance of bloom with a heavy fragrance. The flowers are pink to lavender in colour and bloom in late June. The small leaves are glossy and dark green in colour. Zone 3.

**Miss Kim Lilac STD - Syringa patula 'Miss Kim'**
This lilac variety is known for its lavender-purple flowers and purple fall foliage. A fragrant late bloomer. Zone 3.

**Tinkerbelle® Lilac STD - Syringa x 'Bailbelle'**
This lilac variety is known for its deep-pink blooms and spicy fragrance. Requires a protected location. Zone 4. Royalty 50¢.

**Globe Blue Spruce STD - Picea pungens 'Globosa'**
Bright blue evergreen foliage. Excellent accent plant. Zone 2.

**Snowball Viburnum - Viburnum opulus 'Sterile'**
Tree form shrub producing large, double white flowers that later turn to light pink. The flowers are sterile so do not produce fruit. This showy plant has maple-like leaves. Zone 3.

**Weeping Pussy Willow STD - Salix caprea 'Pendula'**
A collector plant for prairie gardeners. An attractive accent plant throughout the growing season. Large, silvery and wooly catkins in spring. Leaves are wide, serrated, bright-green above, silver below. Zone 4.
**Aronia - Chokeberry**

*Autumn Magic Chokeberry*
*Aronia melanocarpa ‘Autumn Magic’*

- **Height:** 3 - 4 Feet (1.25 m)
- **Spread:** 3 - 4 Feet (1.25 m)
- **Flowers:** White, fragrant
- **Zone:** 3

An upright shrub with dark, glossy-green foliage that turns a red colour in the fall. Fragrant flowers in spring are followed by black berries that attract birds. Royalty 10¢.

---

**Berberis - Barberry**

*Emerald Carousel® Barberry*
*Berberis ‘Tara’*

- **Height:** 4 - 5 Feet (1.5 m)
- **Spread:** 4 - 5 Feet (1.5 m)
- **Foliage:** Deep green
- **Zone:** 4

---

*Jade Carousel® Barberry*
*Berberis thunbergii ‘Bailgreen’*

- **Height:** 3 Feet (0.9 m)
- **Spread:** 3 - 5 Feet (1.5 m)
- **Foliage:** Green
- **Zone:** 4

A new collector plant for the prairie gardener. Uniform and dense green foliage with a compact habit. Scarlet-orange fall colour. Prefers full sun.

---

*Rose Glow Barberry*
*Berberis thunbergii ‘Rose Glow’*

- **Height:** 3 Feet (0.9 m)
- **Spread:** 2 - 3 Feet (0.9 m)
- **Foliage:** Rose-red
- **Zone:** 4

A new collector plant for the prairie gardener. Attractive variegated foliage makes this small shrub an excellent specimen. Prefers full sun.

---

*Ruby Carousel® Barberry*
*Berberis thunbergii ‘Bailone’*

- **Height:** 3 - 4 Feet (1.25 m)
- **Spread:** 3 Feet (0.9 m)
- **Foliage:** Reddish-purple
- **Zone:** 4

---

*Sunsation® Barberry*
*Berberis thunbergii ‘Monry’*

- **Height:** 3 Feet (0.9 m)
- **Spread:** 2 - 3 Feet (1.5 m)
- **Foliage:** Golden
- **Zone:** 4

---

**Buxus - Boxwood**

*Green Mountain Boxwood*
*Buxus ‘Green Mountain’*

- **Height:** 3 - 4 Feet (1.25 m)
- **Spread:** 3 Feet (0.9 m)
- **Foliage:** Green
- **Zone:** 4

The most upright boxwood, with dark green foliage year round. Slow growing, rounded plant. An excellent plant for the collector.

---

**Caragana**

*Common Caragana*
*Caragana arborescens*

- **Height:** 10 - 15 Feet (4.5 m)
- **Spread:** 6 - 8 Feet (2.5 m)
- **Flowers:** Yellow
- **Zone:** 2

An ideal shelterbelt or hedging plant for dry conditions. This plant fixes nitrogen so can adapt to a variety of soils.

---

*Fernleaf Caragana*
*Caragana arborescens ‘Lorbergii’*

- **Height:** 6 - 10 Feet (3 m)
- **Spread:** 6 Feet (1.75 m)
- **Flowers:** Yellow
- **Zone:** 2

Feathery leaves resemble that of the Asparagus Fern. Hardy and drought tolerant. Should be trimmed annually.

---

*Globe Caragana*
*Caragana frutex ‘Globosa’*

- **Height:** 2 - 3 Feet (0.9 m)
- **Spread:** 2 - 3 Feet (0.9 m)
- **Foliage:** Dark green
- **Zone:** 2

A compact plant with dense foliage and yellow flowers. Suited for hedges, foundation and bed plantings.

---

*Pygmy Caragana*
*Caragana pygmaea*

- **Height:** 3 Feet (0.9 m)
- **Spread:** 4 Feet (1.25 m)
- **Flowers:** Yellow
- **Zone:** 2

A compact, dense and thorny shrub that is very resistant to drought and salt. The foliage is fine textured and graceful. The small bright yellow flowers appear in June.
**Cotoneaster**

**Hedge Cotoneaster**
*Cotoneaster lucidus*

<td>Golden</td>
</tr>
<tr>
<td>Zone</td>
<td>2</td>
</tr>
</tbody>
</table>

A selection of European dogwood. The solid golden colour of the leaves makes it very distinctive from the Golden Variegated Dogwood. Excellent red fall colour.

**Redosier Dogwood**
*Cornus sericea*

<table>
<thead>
<tr>
<th>Height</th>
<th>6 - 10 Feet (3 m)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Spread</td>
<td>6 - 10 Feet (3 m)</td>
</tr>
<tr>
<td>Bark Colour</td>
<td>Red</td>
</tr>
<tr>
<td>Zone</td>
<td>2</td>
</tr>
</tbody>
</table>

This hardy native dogwood is very attractive when the leaves turn red in the fall. The red twigs contrast with the snow in the winter. Prefers moist to wet habitats. The white berries are preferred food for songbirds.

**Siberian Pearl Dogwood**
*Cornus alba ‘Siberian Pearl’*

<table>
<thead>
<tr>
<th>Height</th>
<th>5 - 6 Feet (1.75 m)</th>
</tr>
</thead>
<tbody>
<tr>

<tr>
<td>Bark Colour</td>
<td>Bright red</td>
</tr>
<tr>
<td>Zone</td>
<td>2</td>
</tr>
</tbody>
</table>

Attractive bright red stems for winter contrast. The green foliage is deeply-veined and turns a brilliant red in the fall. The white blossoms are followed by blue-white fruit. Tolerates moist and shady locations.

---

Jeffries Nurseries Ltd.

Phone Toll Free: 1-888-857-5288
Silverscape® Olive
*Elaeagnus x 'Jefmorg'*

**Height**: 5 - 6 Feet (1.75 m)  
**Spread**: 4 - 5 Feet (1.5 m)  
**Foliage**: Silver  
**Zone**: 2  

**New listing for 2005.** A variegated form of Redosier Dogwood selected for its unique stem and leaf coloring and ease of culture. A spreading shrub with bright yellow stems.

Cotinus - Smokebush

Royal Purple Smokebush
*Cotinus coggyria 'Royal Purple'*

**Height**: 5 - 6 Feet (1.75 m)  
**Spread**: 5 - 6 Feet (1.75 m)  
**Flowers**: Beige, fragrant  
**Zone**: 5  

Velvety, purple foliage and panicles of beige flowers in midsummer. Collector plant.

Daphne

Rose Daphne
*Daphne cneorum*

**Height**: 10 - 12 Inches (0.3 m)  
**Spread**: 4 Feet (1.25 m)  
**Flowers**: Deep rose pink  
**Zone**: 3b  

Low, spreading, broadleaf evergreen. Produces a profusion of flower. These highly fragrant flowers appear in late May. Suited to heavy soils that are well drained.

Elaeagnus - Olive

Russian Olive
*Elaeagnus angustifolia*

**Height**: 20 Feet (6 m)  
**Spread**: 20 Feet (6 m)  
**Foliage**: Silver  
**Zone**: 2  

This plant can be grown as a shrub or a small specimen tree. Noted for its silvery-gray foliage, fragrant flowers and decorative fruits. Very tolerant to salt and drought.

Dwarf Winged Burning Bush
*Elaeagnus alatus 'Compactus'*

**Height**: 3 Feet (0.9 m)  
**Spread**: 3 Feet (0.9 m)  
**Flowers**: Pink seed capsules  
**Zone**: 3  

This compact form of Winged Euonymus has square corky branches and red fruit. The dark green foliage turns brilliant red in the fall.

Forsythia

Northern Gold Forsythia
*Forsythia x 'Northern Gold'*

**Height**: 6 - 8 Feet (2.5 m)  
**Spread**: 5 - 6 Feet (1.75 m)  
**Flowers**: Yellow (early spring)  
**Zone**: 3  

A spectacular display of golden-yellow spring flowers appear before the dark green leaves. This cultivar has the hardiest flower buds of the species. Excellent for groupings, borders. Royalty 10¢.

Euonymus

Maacki Burning Bush
*Euonymus hamiltonianus maacki*

**Height**: 10 Feet (3 m)  
**Spread**: 10 Feet (3 m)  
**Flowers**: Pink seed capsules  
**Zone**: 3  

Large shrub with interesting pink fruit later in the season. The orange arils and red seeds contrast with the dark green foliage. Full sun to partial shade.
Genista

Dwarf Broom
Genista lydia

Height: 18 Inches (0.5 m)
Spread: 3 Feet (0.9 m)
Flowers: Yellow
Zone: 3

A dwarf flowering shrub with slender, pendulous branches covered with golden yellow flowers in June. Prefers full sun.

Hydrangea

Annabelle Hydrangea
H. arborescens grandiflora ‘Annabelle’

Height: 3 - 4 Feet (1.25 m)
Spread: 3 - 4 Feet (1.25 m)
Flowers: Large, creamy-white
Zone: 3

A large flowered hydrangea that requires a sheltered location and prefers heavy soil and partial shade. The large pure-white flowers bloom in July and are long-lasting. Spring pruning to 6” in height will renew the plant.

Endless Summer™ Hydrangea
Hydrangea macrophylla ‘Ballmer’

Height: 3 - 4 Feet (1.25 m)
Spread: 3 - 4 Feet (1.25 m)
Flowers: Large, pink
Zone: 4

The first cultivar of this species to bloom throughout the summer on new and old wood. A collector plant that requires a sheltered location and adequate winter protection. Royalty $2.20.

Kyushu Hydrangea
Hydrangea paniculata ‘Kyushu’

Height: 3 - 4 Feet (1.25 m)
Spread: 3 - 4 Feet (1.25 m)
Flowers: White
Zone: 3

An attractive shrub with large, open panicles of white flowers. Green glossy foliage with pointed leaves.

PeeGee Hydrangea
Hydrangea paniculata ‘Grandiflora’

Height: 3 - 4 Feet (1.25 m)
Spread: 3 - 4 Feet (1.25 m)
Flowers: Large, white
Zone: 3

Masses of cone-shaped flowers bloom in July and August and turn pinkish-bronze towards fall. Prune after flowering.

Unique Hydrangea
Hydrangea paniculata ‘Unique’

Height: 3 - 4 Feet (1.25 m)
Spread: 3 - 4 Feet (1.25 m)
Flowers: Large, white
Zone: 3

The cream-flowered panicles are larger than ‘PeeGee’, makes an outstanding floral display. Flowers turn a pink-bronze colour in late summer.

Lonicera - Honeysuckle

Arnold Red Honeysuckle
Lonicera tatarica ‘Arnold Red’

Height: 6 - 10 Feet (3 m)
Spread: 6 - 10 Feet (3 m)
Flowers: Red
Zone: 2

The best of the honeysuckles because of its profuse display of dark red blossoms in May and attractive red fruit throughout the summer. Resistant to honeysuckle aphids.

Honeyrose Honeysuckle
Lonicera tatarica ‘Honeyrose’

Height: 6 - 10 Feet (3 m)
Spread: 6 - 10 Feet (3 m)
Flowers: Rosy red
Zone: 3

This upright, rounded shrub produces deep rosy-red flowers and blue-green foliage. Resistant to witches broom aphid. Better plant habit and flowers than ‘Arnold Red’.

Miniglobe Honeysuckle
Lonicera x xylosteoides ‘Miniglobe’

Height: 3 - 4 Feet (1.25 m)
Spread: 3 - 4 Feet (1.25 m)
Flowers: Yellow-white
Zone: 3

The best hardy, compact, dwarf honeysuckle available. The superior, dark green foliage makes this an ideal foundation plant. Royalty 10¢.

Sweetberry Honeysuckle
Lonicera caerulea ‘Edulis’

Height: 4 Feet (1.25 m)
Spread: 4 Feet (1.25 m)
Flowers: Cream
Zone: 2

A hardy, compact shrub with cream-coloured flowers and blue fruit. Disease resistant. Excellent choice for foundation plantings.
**Pachistima**

Cliff Green Pachistima  
_Pachistima canbyi_

- **Height:** 2 - 3 Feet (0.9 m)  
- **Spread:** 2 Feet (0.6 m)  
- **Foliage:** Evergreen  
- **Zone:** 2  

A dwarf evergreen shrub best suited for shaded areas. Produces white flowers in summer. Ideal as a groundcover.

---

**Physocarpus - Ninebark**

**Dart’s Gold Ninebark**  
_Physocarpus opulifolius 'Dart’s Gold'

- **Height:** 5 - 6 Feet (1.75 m)  
- **Spread:** 5 - 6 Feet (1.75 m)  
- **Foliage:** Golden  
- **Zone:** 2  

A hardy plant with golden foliage. Ideal for contrast in the landscape. Suitable for foundation or border plantings.

**Blizzard Mockorange**  
_Philadelphus lewisi 'Blizzard'

- **Height:** 4 - 5 Feet (1.5 m)  
- **Spread:** 5 Feet (1.5 m)  
- **Flowers:** White, fragrant  
- **Zone:** 2b  

Covered with clusters of fragrant white flowers in mid-summer. A hardier form of Lewis Mockorange developed by the late Mr. John Wallace and named by the Morden Research Station. Royalty 10¢.

**Galahad Mockorange**  
_Philadelphus x 'Galahad'

- **Height:** 4 - 5 Feet (1.5 m)  
- **Spread:** 3 Feet (0.9 m)  
- **Flowers:** White, fragrant  
- **Zone:** 3  

This compact shrub has glossy leaves and produces fragrant, single white flowers in late June.

**Golden Mockorange**  
_Philadelphus coronarius 'Aurea'

- **Height:** 3 - 4 Feet (1.25 m)  
- **Spread:** 3 Feet (0.9 m)  
- **Flowers:** White, fragrant  
- **Zone:** 3  

One of the best golden foliaged shrubs. Fragrant single, white flowers. Makes an excellent hedge.

---

**Goldfinger Potentilla**  
_Potentilla fruticosa ‘Goldfinger’_

- **Height:** 2 - 3 Feet (0.9 m)  
- **Spread:** 2 - 3 Feet (0.9 m)  
- **Flowers:** Yellow  
- **Zone:** 2  

A dense plant with very large and showy yellow flowers, up to 1½ inches in diameter. Compact habit and showy display make this an excellent specimen plant.

**Summer Wine™ Ninebark**  
_Physocarpus opulifolius 'Seward'

- **Height:** 4 - 5 Feet (1.5 m)  
- **Spread:** 3 - 4 Feet (1.25 m)  
- **Foliage:** Dark crimson-red  
- **Zone:** 3
